PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science and Engineering (2022; CGPA 7.95) with knowledge of Core Java, SQL, and Spring Boot. Seeking a Java Developer Trainee, Junior Java Developer, or Associate Software Engineer opportunity. Interested in applying object-oriented programming, database fundamentals, and backend development concepts to build and maintain software applications. Brings previous non-IT work experience and a willingness to learn and collaborate.

TECHNICAL SKILLS

Programming: Core Java

Java Fundamentals: Object-Oriented Programming (OOP), classes and objects, inheritance, polymorphism, encapsulation, abstraction, exception handling, Collections

Backend: Spring Boot (REST APIs, Microservices basics)

Database: SQL; relational database concepts Mysql

Development Tools: Git, GitHub, IntelliJ IDEA / Eclipse / VS Code

PROJECT

Library Management System | Java project

Project focus: library record management.

- Add the actual features you implemented, such as book/member record operations, search, issue/return tracking, or database connectivity—include only those completed.
- Specify the technologies actually used (for example, Core Java, JDBC, SQL/MySQL, or Spring Boot) and briefly describe your contribution.
- Add a GitHub repository link if the project is published: github.com/dev-satish-kr.

PROFESSIONAL EXPERIENCE

Previous IT Experience

Employer: Avatu Pvt Limited | **Job title:** Servicenow Developer | **Dates:** 06/2022 – 04/2023

- Developed and Customized ServiceNow modules and workflows to automate ITSM processes.
- "Customized ServiceNow modules and workflows, improving incident resolution time by 20% through effective coordination with cross-functional teams.
- "Demonstrated strong communication, ownership, and time management skills by coordinating with teams, meeting deadlines, and resolving issues effectively."

Previous Non IT Experience

Employer: BYJUS | **Job title:** Senior Business Development Associate | **Dates:** 05/2023 – 07/2024

- Drive sales by engaging with students and parents, converting leads into customers.
- Build and maintain strong client relationships while mentoring junior BDAs.
- Analyze market trends and refine strategies to consistently achieve growth targets.

Previous Non IT Experience

Employer: CollegeHai | **Job title:** Senior Admission counsellor | **Dates:** 01/2026– 08/2026

- Guide students through the admission process by explaining eligibility, courses, and fee structures.
- Counsel and support applicants in making informed academic choices for undergraduate and postgraduate programs.
- Manage applications, coordinate with institutions, and ensure smooth enrollment and documentation.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Technocrates Institute of Technology & Science | RGPV | 2022 | CGPA: 7.95

RELEVANT LEARNING & DEVELOPMENT

Core Java, SQL, and Spring Boot —

TARGET ROLES

Java Developer Trainee • Junior Java Developer • Associate Software Engineer • Backend Developer (Entry-Level)
